

Fit out and
refurbishment specialist

Helping you whatever your space

Helping you deliver the highest quality fit out and refurbishment projects whatever your space

Our highly experienced office fit out and refurbishment teams can deliver your office requirement at any location in the UK, for any style of occupation, and any size of project.

Drawing on a national delivery network our retail team manages larger one-off retail schemes alongside the dynamic needs of national retail programmes.

Our specialist team delivering projects within hotels, including rooms and suites, restaurants, bars, gyms and spas.

Carrying out refurbishment and fit out at education establishments including teaching and social spaces, lecture theatres, accommodation and leisure areas.

Providing a fit out and refurbishment service for clients undertaking highly technical projects including data centres, internal infrastructure and technical working spaces.

Wherever you are, we have the ability to deliver

Working out of five regional centres our teams have the resources and the local knowledge to deliver projects across the breadth of the country. In the last few years we have delivered projects to clients in every major UK city.

We can work however you want us to

Our teams in each of our markets always stay flexible to the particular needs of your project, your business, your staff and your team. This ensures that you get the most appropriate level of resource and best achievable value for your exact requirement.

Our range of expertise gives you a number of different methods for approaching your project, including traditional tendering, frameworks, or emerging trends like contractor led delivery models.

We will work happily alongside appointed professional teams or directly for the client – whichever suits the project best.

We would love to work with you more

Our teams are empowered and talented – all experts in the specialist skill sets required for fit out and refurbishment in your markets.

If you would like to talk to us about an upcoming project, please contact Anthony Brown on 020 7307 9000. Or visit www.overbury.com for more information.
